## Prime Power (PRP):

According to ISO 8528-1:2018, Prime power is the maximum power which a generating set is capable of delivering continuously whilst supplying a variable electrical load when operated for an unlimited number of hours per year under the agreed operating conditions with the maintenance intervals and procedures being carried out as prescribed by the manufacturer. The permissible average power output over 24 hours of operation shall not exceed 70 % of the PRP.

#### **Emergency Standby Power (ESP):**

According to ISO 8528-1:2018, Emergency standby power is the maximum power available during a variable electrical power sequence, under the stated operating conditions, for which a generating set is capable of delivering in the event of a utility power outage or under test conditions for up to 200 hours of operation per year with the maintenance intervals and procedures being carried out as prescribed by the manufacturers. The permissible average power output over 24 hours of operation shall not exceed 70 % of the ESP

ENGINE:Marine 4 stroke cooled diesel engine complete with air,fuel and oil filters,electric starting and charging equipment

## COOLING: With heat exchanger, sea water pump cooling

**ELECTRICAL SYSTEM:**12/24V upto.Axial type starter motor,battery charging alternator,high capacity lead acid battery,and battery tray mounted on the generator base frame,and heavy duty interconnecting cable with terminations.

# CONTROL PANEL: CUMMINS KCM-IIG

# MODEL: CCFJ-300J5 Marine Generator Powered by Cummins

# Frequency Adjustable Ratio

Change load from 0-100%, within 1.0% (electric speed regulator), within 4.5% (mechanical speed regulator)

#### Frequency Undulation

Δ Load from 0-100%, frequency undulation within 0.25%

Δ No load wire volts max undulation ration\ within 1.8%

Δ Three Phrase balanced load in the order of 5%

Δ Effect factor of Telecom

Δ TIF better than 50

Δ THF to IEC60034 Part 40 better than 2%

## **Quality Standards**

ISO9001:2000,ISO14000,ISO3046

BS5514,AS1359,ICE34

**CE Compliance** 

ISO8528 BS4999

## Gensets Dimensions & Weight & Fuel Tank Capacity

Open type:LxWxH (mm),Dry Weight / Kgs, Fuel tank ( L ) 3000\*1270\*1950, 4200kgs
